## #6210 INSTA CORNER CASTING

**insta**  
CONTAINER MODIFICATION

### #6210 INSTA CORNER CASTING DESCRIPTION:

The INSTA Corner Castings are the steel corners of a shipping container. They are the structural component that allow shipping containers to be connected horizontally or vertically and enable transportation by ship, rail, and road. Corner castings also allow shipping containers to be picked up and moved around as required. A Complete set for a standard shipping container will include 8 Corner Castings (2-top left, 2-top right, 2-bottom left, 2-bottom right).

Manufacturing MTR available upon request.

### SPECS

- Made from high quality casting steel
- 178mm x 162mm x 118mm
- Wall thickness of 3/4"

### FEATURES

- Each set comes with 8 Corner Castings (2-top left, 2-top right, 2-bottom left, 2-bottom right.)
- Can be sold separately

INSTA Container Modifications is a proud charter member of the National Portable Storage Association (NPSA).

**WARNING** - All products that require installation or fabrication should never be done until you have the product in hand to take exact measurements. While every attempt is made to make sure product specifications are accurate, there is the possibility the products have been updated or a small variance between production made the measurement off. Installation of products may require some fabrication experience, and in no way does warranty cover installation mistakes.
