

NO WELDING OR PAINTING REQUIRED!

#6220 INSTA CONTAINER GUARD MOISTURE TRAP

#6220 INSTA CONTAINER GUARD MOISTURE TRAP:

This #6220 INSTA Container Guard Moisture Trap is used to reduce moisture and condensation in shipping containers, garages and storage units. This moisture trap is easy to hang and fits neatly within shipping wall corrugations. This results in minimal space loss and protection during loading and unloading of the container.

SPECS

- Material: Calcium chloride and Plastic
- Life span: 12-14 weeks (depending on the level of humidity)
- Working temperature: 15° - 70° degrees C

DIRECTIONS

- Remove packaging, connect the hook to the top of the container guard unit and hook over a container lashing ring.
- Do not place items near or cover the container Guard. For the product to function fully it requires air space.

INSTA Container Modifications is a proud charter member of the National Portable Storage Association (NPSA).

WARNING - All products that require installation or fabrication should never be done until you have the product in hand to take exact measurements. While every attempt is made to make sure product specifications are accurate, there is the possibility the products have been updated or a small variance between production made the measurement off. Installation of products may require some fabrication experience, and in no way does warranty cover installation mistakes.
